

Lesson Plan 4 | Form 1 | Typing Reinforcement

Objective

Students will see their grades from the prior lesson's typing assessment and have an opportunity to improve.

Warm-up

None.

Presentation

None.

Guided Practice

None.

Independent Practice

Make all students aware of their grades. Bring everyone to the computer lab for Tux Typing and point out ways they can improve in preparation for a second assessment.

Closing

Remind students that a second assessment will be given in the next lesson, at a difficulty level higher than that of their first assessment.

In Hindsight

01/23/2017: Most students received an A or B on the initial LP3 assessment, with a few Cs. In reality, reinforcement seemed to give the motivated students more of an opportunity to improve but didn't do much for the others, who likely need more time and/or motivation.
